

Project: Engage Hope
Bethany Assembly of God
9/13/2020

- Share/write/ think about what your life was like before you knew Jesus? In what were you placing your hope?
- Before you came to faith in Christ, did you experience a period of hopelessness? If you were saved when you were young, how did you come to realize your need for Jesus?
- When did you first believe in Jesus? What drew you to a relationship with Him?
- What has changed in your life as a result of following Jesus?
- Do you ever feel your hope fading? What helps to restore the hope you have in Jesus?
- How can you help other Christians be filled with hope?
- What are some of the effects hoping in Jesus has (or should have) in the life of believers?
- Read Ezekiel 37:1-14. Is there some area of your life that you have felt is all dried up and hopeless? If God were to send you a prophetic message for that valley of dry bones, what do you think it would be?
- Pray and ask God that you would constantly experience His living hope and pray that that hope will spill over into the world so that they can see the hope that is only found in Jesus!
